## U. F. A. President at Dalemead

**Deals With Work of Wheat Board**  
The enterprising community of Dalemead was honoured on Friday evening by the presence of Mr. H. W. Wood, President of the United Farmers of Alberta, and a member of the Wheat Board of Canada.

Mr. Wood was greeted by an audience that filled the Community Hall at Dalemead to its utmost capacity. The meeting was held under the auspices of Dalemead U.F.A.

After an entertaining programme furnished by the young folks of the community, Mr. Wood spoke, covering the operations of the Canada Wheat Board and the marketing of wheat in general. Mr. Wood was accompanied by Mr. H. W. Wood, an office staff who spoke briefly on the relation of the subsidiary committees affiliated with the U.F.A.

**Explains Grain Marketing**  
In opening his address President Wood made it plain that he did not "come to be an expert in the marketing of grain but that he would try to cover the subject in a general way. He then went on to explain how the government had come to take over the control of the wheat marketing of the country during the war, how the Board of Grain Supervisors had been appointed in 1917 at the instance of the Canadian Council of Agriculture, and explained how after buying the wheat of the country at a fixed price, it was necessary to organize the Canadian Wheat Board after the war to save

the country the added expense in case the market should be thrown open again and should slump while the government was holding the large quantity of wheat bought under bond at \$2.25.

**Praises for Chairman Stewart**  
Mr. Wood gave all credit for the successful handling of the 1919 crop to Chairman Stewart of the Wheat Board and said that in the opinion of this gentleman was the best fitted man to handle this proposition and that he would like to see the farmers united and organized with Mr. Stewart as the guiding light, although he admitted on question that he did not think the farming community was yet sufficiently organized to handle such a proposition. President Wood blessed the Peace of the country for printing all articles of interest representing the Canadian Wheat Board.

**Co-Operation and Democracy**  
He also emphasized the opinion that crop cooperation was the danger zone and said that the country would have to be really democratic while wheat cooperation among the people. Mr. Wood said that the Canada Wheat Board had handled approximately 100 million bushels and that it expected the wheat yield not to total over 100 million per bushel.

There was considerable discussion of possibilities of farmers' owning a large pool to market their own grain which helped nullify the small losses of the morning.

## Prohibitionists Well Organized and Confident of Success

From information gathered at the headquarters of the Alberta Prohibition Committee in Edmonton the campaign directed by the prohibitionists is well under way. Under the committee's direction the office and field staff have been appointed and organization of district and local committees has been vigorously founded. H. H. Hall, General Secretary of the Social League and Provincial Organizer and Business Manager of the campaign and Dr. Edward A. Bishop, 101 recently Hall, Voluntary Secretary of the League and now a Field Secretary of the Department of Prohibition, is the official organ of the campaign. Rev. A. C. Bryan, Prohibition Minister of Labor was appointed secretary of the provincial committee and is giving his full time to the campaign in the office in Edmonton.

For the more thorough organization of the various localities of the province, a strong force of district organizers has been formed in the provinces of the province, each of single province constituencies or groups of constituencies. At present some sixteen or seventeen organizers are at work and other appointments are contemplated in the near future. Local committees have been organized in considerably over two hundred and fifty centres, large and small.

Reports received at the head office indicate opposition in a few sections of the province but this is in sections where a majority adverse to prohibition was recorded in the plebiscite of 1915. It is said to be very evident, however, that this opposition is much weaker than then and there are points where it is about being overthrown by a prohibition majority. In many other sections prohibition sentiment is very strong, some indeed are overhauling their Prohibition Societies are now, every, looking no chance but pushing their organization and propaganda with all possible vigour. They are not only to secure the necessary bare majority to stop importation of intoxicating liquor into the province for beverage purposes but to reduce such an emphatic proclamation on the part of the whole body of citizens that the attitude of the public to the matter of law enforcement will leave no room for doubt. Alberta Social Service League.

## Rotarians Visit Strathmore

Strathmore was honoured by the visit of the Rotarians of the Rotary Club of Calgary, with their wives and field friends, to the number of about 200.

The party arrived in motor cars between four and five, and spent the time prior to dinner in looking over the various departments of the C.P.R. Park. The sunshower, of which there are 25 acres in crop this year, were being cut and loaded into the silos at the time, and this attracted a great deal of attention.

Messrs. P. Nasmith and G. H. Hutton of the C.P.R. Dept. of Natural Resources, were the host for the day, and when the call came for dinner they earned the hearty gratitude of their hostesses, Rotarians. A splendid meal was set out on the lawn in front of the manager's house, and here the party regaled themselves with duck, chicken, trout, fish, etc.

After the meal was cleared away, the Rotarians burst into song in praise of Messrs. Horton and Nasmith, to very appropriate words, and after the song was called, President W. R. Marshall called on District Governor Davis, of Medicine Hat, for a few remarks, to which he responded by congratulating Calgary Club on the large attendance they had present, and thanked the C.P.R. for the opportunity they had given them of visiting the Farm, and for their hospitality when there.

## Wedding Bells

A wedding of considerable interest to local people took place at Ponteron, B.C., on August 7th, when Miss Anne (Gladys) McLean, youngest daughter of Mr. James McLean of Okanogan, was married to Mr. Robert Reid Fraser, formerly of L.A., in the 2nd C.M.E.S. and son of Mr. and Mrs. James Fraser of Inverness, Scotland. They will reside at Kamloops, B.C.

The bride is well-known in Strathmore and district, having taught school here for a considerable time. She is a sister of Mrs. Thos. D. Wright, Strathmore.

The young couple will be wished very felicity in the happy future that lies before them.

FOX-ROBBIE

A quite wedding was solemnized by Rev. R. H. Roberts at the Manor, Calgary, on Sunday, August 29th, when Mrs. A. Robb, of Newbridge, Wales, was united in marriage to Mr. R. Fox of Strathmore.

Mr. R. J. Beach, Mr. Fox's partner was accompanied, and Mr. Fox, bridegroom, after the customary wedding dinner was served at the Puller, and after a short honeymoon the happy couple returned to Strathmore. They will shortly take up residence at the house on Sixth Street formerly owned by Mr. Eric Richards, and while it is being furnished they are staying with Mr. and Mrs. Beach.

The bride only arrived from England a week prior to the ceremony, and was met at Winnipeg by Mr. Fox.

## School Re-Opens

Strathmore school re-opened on September 1st, with an attendance of twenty in excess of the enrolment last term, and the full staff of five teachers.

The teaching staff are as follows: Grades VII to XI inclusive: Mr. L. Williams, Principal, and Mr. G. M. Craine, Vice-Principal. Grades V and VI: Mrs. Boward, Grades III and IV: Miss Brody, Primary: Miss E. N. Fidler.

Mr. Williams was with the school last term as vice-principal and is well known locally.

Mr. Craine, the vice-principal is a new member of the staff and previous to coming here was principal of the Consolidated School of Milk River. He is a native of Nova Scotia.

Mrs. Boward has been long with the school staff than any of the other teachers, having been here for about thirty years.

Miss Brody comes from Chateau Bay, Nova Scotia, and Miss Fidler from Manitoba.

## CALGARY ODDFELLOWS VISIT STRATHMORE

Calgary Oddfellows and Sandstone City Lodge, L.O.O.P., visited Strathmore Lodge on Thursday evening last, and conferred the honorary degree on a number of candidates for admission into Strathmore Lodge. The visiting brethren conferred the degree in an impressive manner, and after work was over an enjoyable time was spent with refreshments, etc. The Calgary party consisted of twenty-five members.

Tomorrow evening Sandstone City Lodge will confer the first degree on a number of candidates. Local brethren are requested to be in attendance at 8 p.m. sharp.

## The Memorial Hall

A determined effort is going to be made to raise the money required to build the Memorial Hall at Strathmore within the next two weeks. The financial position is at present that there is approximately \$2500 in bank, \$1000 guaranteed by M.R. Low, Calgary, and \$1500 guaranteed, a total of about \$7000. The plans have been prepared by the architect Mr. C. Ross, and laid out, and other necessary expenses amounting to about \$200, have also been paid. Six lots on 2nd Street have been donated by the town of Strathmore.

The G.W.V.A. do not feel justified in going ahead with the building unless they have more money on hand. The cost of the proposed building will be approximately \$20,000. The original figure of the time the building was projected was \$15,000, but owing to the increase in cost of material and labor the cost would now be at least \$20,000.

The purpose of the hall is to provide a permanent Memorial to the men from Strathmore and district who were killed in the Great War, and to provide the local G.W.V.A. with club rooms, and the people of the district with a social centre.

It would be possible to decrease the cost to \$12,000 or \$14,000 by providing a frame building, but this would not be a memorial hall in the proper sense of the word.

To raise the amount required to put the hall up would require a subscription of \$10 from every farmer and every business man in the district. Some have already given more than this, and some have given less, while most of the people of the district have not contributed at all.

It has been found impossible to get the hall up to see most of the people in the district owing to weather conditions, and everybody having been busy, but a start should be made on the building this fall, so that the foundation can be

in before the hard winter days. Is there anyone living in the district to whom the sacrifice made by men who went overseas and died in the war of a permanent memorial. We should hope not. There may be differences of opinion as to the kind of memorial that should be erected, but the one decided on has been decided on by the majority of the people of the town, both for appearance and utility, and is approved by the veterans of the war throughout the district, the G.W.V.A.

The fact of the Allied Armies went "over the top" many times for the sake of the freedom and well-being of the people at home. It is too much to ask of the people of Strathmore and district to "go over the top" now, and raise the money for the Memorial Hall now. If no canvasser calls on you, leave your cheque or your promise with the secretary of the G.W.V.A., Mr. Pete Nasmith, or at the office of the Strathmore Standard.

\$2000 is a big sum to ask, but not a big sum when the object involved is realized. It is not a big sum if every citizen contributed what they can do this fall, with his prospect of his crop returns. If you have no funds available at present, the G.W.V.A. will take your name for two or three months, but they want to be assured of funds so that they can go ahead and let the expert for the hall.

About \$12,000 is required to complete the fund necessary to build the hall. It cannot be secured by less than an average contribution of \$400 from every owner of land or property in the district.

Dear this in mind when you are making your contribution. And remember that there is a benefit accruing to the district and to yourself and your family in having a real hall for general community purposes in the centre of the district.

## Harvest Almost Complete

Three weeks of strathmore week, favored by fine weather has resulted in the cutting of nearly all of the crop of 1920. It is a long since the weather conditions have been so favorable throughout the growing and reaping season.

Provisioning of household commodities this week, and will be in full swing by the end of the week.

Most of the rice throughout the district has now been threshed, and some has been marketed at the local elevators, and at Carleton Place, A. J. J. Weyers reported a yield of 32 bushels per acre on timothy and 25 bushels per acre on stubble.

Labor appears to be sufficient to handle the harvesting. The rate being generally paid is six dollars per bushel.

Quite a patch of snow on Mr. Thompson's farm was blown off last week. It started from a pile of straw pile in as long as an acre. These have apparently been smothering since and were disturbed by the kinder sun.

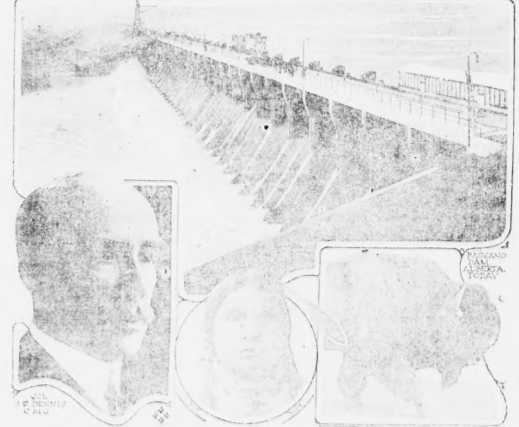

Standard Enterprise.

## The Holstein Records.

Mr. Geo. H. Horton who was called on for a speech, said he was very glad to have the Rotarians here, and pleased so many had come. With reference to the Holstein records.

## Forty-Eight Years in "Canada's Western Empire"

Colonial John A. Macdonald, C.M.G., who sold the Dominion of Alberta, Saskatchewan and Manitoba 44 years ago, is now 82 years old. He was born in Scotland, and came to Canada in 1842. He was a member of the first Parliament of Canada, and was Prime Minister of Canada from 1867 to 1873. He was also a member of the Privy Council, and was a member of the Senate of Canada from 1873 to 1891. He was a member of the House of Commons from 1873 to 1878, and from 1881 to 1886. He was a member of the Senate of Canada from 1891 to 1896. He was a member of the House of Commons from 1896 to 1901. He was a member of the Senate of Canada from 1901 to 1906. He was a member of the House of Commons from 1906 to 1911. He was a member of the Senate of Canada from 1911 to 1916. He was a member of the House of Commons from 1916 to 1921. He was a member of the Senate of Canada from 1921 to 1926. He was a member of the House of Commons from 1926 to 1931. He was a member of the Senate of Canada from 1931 to 1936. He was a member of the House of Commons from 1936 to 1941. He was a member of the Senate of Canada from 1941 to 1946. He was a member of the House of Commons from 1946 to 1951. He was a member of the Senate of Canada from 1951 to 1956. He was a member of the House of Commons from 1956 to 1961. He was a member of the Senate of Canada from 1961 to 1966. He was a member of the House of Commons from 1966 to 1971. He was a member of the Senate of Canada from 1971 to 1976. He was a member of the House of Commons from 1976 to 1981. He was a member of the Senate of Canada from 1981 to 1986. He was a member of the House of Commons from 1986 to 1991. He was a member of the Senate of Canada from 1991 to 1996. He was a member of the House of Commons from 1996 to 2001. He was a member of the Senate of Canada from 2001 to 2006. He was a member of the House of Commons from 2006 to 2011. He was a member of the Senate of Canada from 2011 to 2016. He was a member of the House of Commons from 2016 to 2021. He was a member of the Senate of Canada from 2021 to 2026. He was a member of the House of Commons from 2026 to 2031. He was a member of the Senate of Canada from 2031 to 2036. He was a member of the House of Commons from 2036 to 2041. He was a member of the Senate of Canada from 2041 to 2046. He was a member of the House of Commons from 2046 to 2051. He was a member of the Senate of Canada from 2051 to 2056. He was a member of the House of Commons from 2056 to 2061. He was a member of the Senate of Canada from 2061 to 2066. He was a member of the House of Commons from 2066 to 2071. He was a member of the Senate of Canada from 2071 to 2076. He was a member of the House of Commons from 2076 to 2081. He was a member of the Senate of Canada from 2081 to 2086. He was a member of the House of Commons from 2086 to 2091. He was a member of the Senate of Canada from 2091 to 2096. He was a member of the House of Commons from 2096 to 2101. He was a member of the Senate of Canada from 2101 to 2106. He was a member of the House of Commons from 2106 to 2111. He was a member of the Senate of Canada from 2111 to 2116. He was a member of the House of Commons from 2116 to 2121. He was a member of the Senate of Canada from 2121 to 2126. He was a member of the House of Commons from 2126 to 2131. He was a member of the Senate of Canada from 2131 to 2136. He was a member of the House of Commons from 2136 to 2141. He was a member of the Senate of Canada from 2141 to 2146. He was a member of the House of Commons from 2146 to 2151. He was a member of the Senate of Canada from 2151 to 2156. He was a member of the House of Commons from 2156 to 2161. He was a member of the Senate of Canada from 2161 to 2166. He was a member of the House of Commons from 2166 to 2171. He was a member of the Senate of Canada from 2171 to 2176. He was a member of the House of Commons from 2176 to 2181. He was a member of the Senate of Canada from 2181 to 2186. He was a member of the House of Commons from 2186 to 2191. He was a member of the Senate of Canada from 2191 to 2196. He was a member of the House of Commons from 2196 to 2201. He was a member of the Senate of Canada from 2201 to 2206. He was a member of the House of Commons from 2206 to 2211. He was a member of the Senate of Canada from 2211 to 2216. He was a member of the House of Commons from 2216 to 2221. He was a member of the Senate of Canada from 2221 to 2226. He was a member of the House of Commons from 2226 to 2231. He was a member of the Senate of Canada from 2231 to 2236. He was a member of the House of Commons from 2236 to 2241. He was a member of the Senate of Canada from 2241 to 2246. He was a member of the House of Commons from 2246 to 2251. He was a member of the Senate of Canada from 2251 to 2256. He was a member of the House of Commons from 2256 to 2261. He was a member of the Senate of Canada from 2261 to 2266. He was a member of the House of Commons from 2266 to 2271. He was a member of the Senate of Canada from 2271 to 2276. He was a member of the House of Commons from 2276 to 2281. He was a member of the Senate of Canada from 2281 to 2286. He was a member of the House of Commons from 2286 to 2291. He was a member of the Senate of Canada from 2291 to 2296. He was a member of the House of Commons from 2296 to 2301. He was a member of the Senate of Canada from 2301 to 2306. He was a member of the House of Commons from 2306 to 2311. He was a member of the Senate of Canada from 2311 to 2316. He was a member of the House of Commons from 2316 to 2321. He was a member of the Senate of Canada from 2321 to 2326. He was a member of the House of Commons from 2326 to 2331. He was a member of the Senate of Canada from 2331 to 2336. He was a member of the House of Commons from 2336 to 2341. He was a member of the Senate of Canada from 2341 to 2346. He was a member of the House of Commons from 2346 to 2351. He was a member of the Senate of Canada from 2351 to 2356. He was a member of the House of Commons from 2356 to 2361. He was a member of the Senate of Canada from 2361 to 2366. He was a member of the House of Commons from 2366 to 2371. He was a member of the Senate of Canada from 2371 to 2376. He was a member of the House of Commons from 2376 to 2381. He was a member of the Senate of Canada from 2381 to 2386. He was a member of the House of Commons from 2386 to 2391. He was a member of the Senate of Canada from 2391 to 2396. He was a member of the House of Commons from 2396 to 2401. He was a member of the Senate of Canada from 2401 to 2406. He was a member of the House of Commons from 2406 to 2411. He was a member of the Senate of Canada from 2411 to 2416. He was a member of the House of Commons from 2416 to 2421. He was a member of the Senate of Canada from 2421 to 2426. He was a member of the House of Commons from 2426 to 2431. He was a member of the Senate of Canada from 2431 to 2436. He was a member of the House of Commons from 2436 to 2441. He was a member of the Senate of Canada from 2441 to 2446. He was a member of the House of Commons from 2446 to 2451. He was a member of the Senate of Canada from 2451 to 2456. He was a member of the House of Commons from 2456 to 2461. He was a member of the Senate of Canada from 2461 to 2466. He was a member of the House of Commons from 2466 to 2471. He was a member of the Senate of Canada from 2471 to 2476. He was a member of the House of Commons from 2476 to 2481. He was a member of the Senate of Canada from 2481 to 2486. He was a member of the House of Commons from 2486 to 2491. He was a member of the Senate of Canada from 2491 to 2496. He was a member of the House of Commons from 2496 to 2501. He was a member of the Senate of Canada from 2501 to 2506. He was a member of the House of Commons from 2506 to 2511. He was a member of the Senate of Canada from 2511 to 2516. He was a member of the House of Commons from 2516 to 2521. He was a member of the Senate of Canada from 2521 to 2526. He was a member of the House of Commons from 2526 to 2531. He was a member of the Senate of Canada from 2531 to 2536. He was a member of the House of Commons from 2536 to 2541. He was a member of the Senate of Canada from 2541 to 2546. He was a member of the House of Commons from 2546 to 2551. He was a member of the Senate of Canada from 2551 to 2556. He was a member of the House of Commons from 2556 to 2561. He was a member of the Senate of Canada from 2561 to 2566. He was a member of the House of Commons from 2566 to 2571. He was a member of the Senate of Canada from 2571 to 2576. He was a member of the House of Commons from 2576 to 2581. He was a member of the Senate of Canada from 2581 to 2586. He was a member of the House of Commons from 2586 to 2591. He was a member of the Senate of Canada from 2591 to 2596. He was a member of the House of Commons from 2596 to 2601. He was a member of the Senate of Canada from 2601 to 2606. He was a member of the House of Commons from 2606 to 2611. He was a member of the Senate of Canada from 2611 to 2616. He was a member of the House of Commons from 2616 to 2621. He was a member of the Senate of Canada from 2621 to 2626. He was a member of the House of Commons from 2626 to 2631. He was a member of the Senate of Canada from 2631 to 2636. He was a member of the House of Commons from 2636 to 2641. He was a member of the Senate of Canada from 2641 to 2646. He was a member of the House of Commons from 2646 to 2651. He was a member of the Senate of Canada from 2651 to 2656. He was a member of the House of Commons from 2656 to 2661. He was a member of the Senate of Canada from 2661 to 2666. He was a member of the House of Commons from 2666 to 2671. He was a member of the Senate of Canada from 2671 to 2676. He was a member of the House of Commons from 2676 to 2681. He was a member of the Senate of Canada from 2681 to 2686. He was a member of the House of Commons from 2686 to 2691. He was a member of the Senate of Canada from 2691 to 2696. He was a member of the House of Commons from 2696 to 2701. He was a member of the Senate of Canada from 2701 to 2706. He was a member of the House of Commons from 2706 to 2711. He was a member of the Senate of Canada from 2711 to 2716. He was a member of the House of Commons from 2716 to 2721. He was a member of the Senate of Canada from 2721 to 2726. He was a member of the House of Commons from 2726 to 2731. He was a member of the Senate of Canada from 2731 to 2736. He was a member of the House of Commons from 2736 to 2741. He was a member of the Senate of Canada from 2741 to 2746. He was a member of the House of Commons from 2746 to 2751. He was a member of the Senate of Canada from 2751 to 2756. He was a member of the House of Commons from 2756 to 2761. He was a member of the Senate of Canada from 2761 to 2766. He was a member of the House of Commons from 2766 to 2771. He was a member of the Senate of Canada from 2771 to 2776. He was a member of the House of Commons from 2776 to 2781. He was a member of the Senate of Canada from 2781 to 2786. He was a member of the House of Commons from 2786 to 2791. He was a member of the Senate of Canada from 2791 to 2796. He was a member of the House of Commons from 2796 to 2801. He was a member of the Senate of Canada from 2801 to 2806. He was a member of the House of Commons from 2806 to 2811. He was a member of the Senate of Canada from 2811 to 2816. He was a member of the House of Commons from 2816 to 2821. He was a member of the Senate of Canada from 2821 to 2826. He was a member of the House of Commons from 2826 to 2831. He was a member of the Senate of Canada from 2831 to 2836. He was a member of the House of Commons from 2836 to 2841. He was a member of the Senate of Canada from 2841 to 2846. He was a member of the House of Commons from 2846 to 2851. He was a member of the Senate of Canada from 2851 to 2856. He was a member of the House of Commons from 2856 to 2861. He was a member of the Senate of Canada from 2861 to 2866. He was a member of the House of Commons from 2866 to 2871. He was a member of the Senate of Canada from 2871 to 2876. He was a member of the House of Commons from 2876 to 2881. He was a member of the Senate of Canada from 2881 to 2886. He was a member of the House of Commons from 2886 to 2891. He was a member of the Senate of Canada from 2891 to 2896. He was a member of the House of Commons from 2896 to 2901. He was a member of the Senate of Canada from 2901 to 2906. He was a member of the House of Commons from 2906 to 2911. ## Look to the Foundations

For the first time in the history of the United States the population of the rural population is increasing. This is the interesting fact at the same time disquieting fact disclosed by the recent census of the population. While all the figures have not yet been tabulated, examination of the returns is sufficiently far advanced to warrant the above statement, according to officials.

It has, of course, been known for a long time that one of the effects of the wonderful industrial activity brought about in the United States by the war was the exodus of people to the larger centers of population to which they were attracted by the prevailing high wages and by a demand for workers which opened to energetic and capable men, and women, too, splendid opportunities for a rapid advancement. Then, too, thousands of young men drafted from the farm into the army have not returned to the land upon their discharge from military service which, if it did not actually take them away from the farm, brought them into contact with camps and the outskirts of centers of population and introduced them to city life.

The same shifting of population is, unfortunately, taking place in Canada. While it is doubtful if the urban population of this country has actually outstripped the rural, as in the United States, we are on the high road to such a development. In the old farming Province of Ontario the figures have already taken place, and but for the fact that the three prairie provinces are still essentially rural, the figures for Canada might easily be similar to those of the United States.

Proportionately it is said that 50,000 fewer Canadians are engaged in agriculture today than in 1922. According to a recent speech by the Ontario Minister of Agriculture, 48 percent of the population some 48 years ago lived in towns and 50 percent in the country. Today the figures are almost exactly reversed—the 50 percent in Ontario live in the towns.

In a recent article in this column the question was asked as to what was the explanation, and certain views were expressed as to steps that should be taken to check this distressing tendency on the part of young people to get away from the land. Nothing is to be gained, however, by blaming the fact now generally recognized and admitted, that the industrial advancement of the country has been encouraged at the expense of the agricultural. Country life has not been made attractive enough at a time when the attractions of city life have multiplied amazingly; by forcing has not been sufficiently remunerative during a period when working wages were multiplied nearly three times in value have called their appeal from the cities.

The natural, the inevitable result is the increase in the urban population and the decrease in the number of farmers. As Hon. Mr. Doherty put it: "We have believed in the multiplication of stocks and landless and propertyless." But the real solution of all our troubles is increased agricultural production. Why do we not believe that?

Surveys of the monetary equivalent of the return of the average farmer in the Dominion were recently made showing that the majority were making less than \$1,000 a year. Thirty cents an hour was the average wage of both a farmer and his wife on a 100-acre farm in the year of the armistice—a figure which the modified life of laborer and tradesman would reject with scorn. Needless to say such a return is in itself sufficient to explain why the second generation deserts the farm, without giving consideration to other factors in the problem.

There never was a time when the agricultural industry needed more generous assistance and encourage-

ment. It calls for the best thought on the part of all Governments and public bodies. The Dominion is growing too heavy, and while those at the top may not at the moment fully realize their danger, they are occupying a perilous position, and in their own interests and for their future self-protection it is high time they began to look to the agricultural foundations upon which all industry in Canada primarily rests.

## Cures Constipation In A Sensible Way

They Work While You Sleep—Cost Only a Quarter—Are Really Brisk Laxating Results

It only takes one night to prove the wonder-working power of Dr. Ham's Pills. They are the smoothest, easiest acting laxative yet devised, the kind that a child or delicate woman can use with comfort.

Every effort on the part of constipated people is quickly and surely and safely with Dr. Ham's Pills.

Headaches you can banish for all time. Insulated digestion you can promptly restore. Loss of appetite is replaced by a keen desire to eat. The blood is enriched and rendered, in consequence, more energetic and strength and vigor.

Folk who are full of life, sort of run down, lacking in spirits and energy, those who find a day's toil excessive mind and body, these are the people who can be restored by Ham's Pills, after particularly.

For too long, says an Exchange, British Columbia growers have shipped their interior fruit to the fresh fruit markets, where it has pulled down the price of the better grades. It is a well known marketing rule that wherever a cheaper article comes onto the market, quotations of the better varieties drop to lower levels.

Then why do British Columbia fruit growers send this cheap fruit to market? Because they have no facilities to handle their fruit in their own markets, however small, may be retained. Now they intend manufacturing large quantities of inferior fruit for export and fruit prices of various flavors.

The apple dealer business is victim in its infancy, and British Columbia up to the present has not taken advantage of this business in a big way. There are, to be sure, a number of older cities scattered throughout the province but not nearly enough.

And not only is cider in demand but other fruit drinks. Logansberries and the juice of most berries make palatable-tasting drinks.

Every year in the Fraser Valley there must be lost hundreds and hundreds of dollars' worth of fruit that is too ripe to ship. This could all be utilized in making fruit juices.

## States Will Want

Alberta Cattle

Live Stock Man From Chicago Sees A Market For Canadian Product

That there will be an enormous demand for Canadian feeders and stockers in the United States this fall, is the information given by A. A. Walters, of the principal livestock commission houses in Chicago. Mr. Walters is at present in the West, looking into the cattle situation generally. He stated that within the slightest doubt stock raisers on the other side of the line this year would be able to absorb all the feeders and stockers that Alberta can offer this year at good prices.

According to Mr. Walters Canadian cattle are pre-eminently suitable for finishing purposes, compared to those from the southern and southwestern states, as they were able to stand the winter much better.

Every effort on the part of cattlemen he said, were being taken to block the 27 percent tariff bill on live stock which was now before the Senate, and which had been passed by the lower house. The Senate, however, would not meet until December, and as the tariff would be no question about the free importation of animals this fall.

While the demand was great at the present time for Canadian cattle and feeders this would be much more noticeable in about thirty days, as farmers in the corn belt were busy with next harvest. By September first they would be through and will be in the market for all the Canadian cattle they could lay their hands on.

One of the most important statements of Mr. Walters was that these farmers did not require any financial assistance, the banks can loan them with the purchase of these cattle. They were mostly bought in comparatively small individual lots, and had no need of the large funds necessary. The principal sales were made on the Chicago market, also at St. Paul and Winnipeg.

"Canadian cattle rank very high in the United States," continued Mr. Walters. "They put on weight quickly and experience carried out this large scale prove conclusively that they are satisfactory in every way."

**The South African Sweet**  
A remarkable sweet substance in the leaves of a South African plant was brought to notice several years ago, and was declared to be 160 times as sweet as cane sugar. The material has been found to be not a true sugar but a glycerine. The plant seems to have been difficult to obtain, but the U. S. Department of Agriculture has succeeded in getting a number of ounces of the dried leaves and a small quantity of seed. The leaves are reported to be as sweet as saccharin, the marvelous coal tar product.

Continually on their feet, the "Peckers" inevitably suffer from back aches and bunions—but not for long. Because they have the quick release Putnam's Corn Extractor it more painlessly in 24 hours, try "Putnam's," 25¢ at all dealers.

**Peddle German Money**  
Smart Salesmen From U. S. Pick Up Fortune in Ontario

It is reported that two smart salesmen from across the line, both of German descent, have been peddling German marks, or coupons therefore, in the west. They have been seen in western Ontario, particularly around Hanover, Tavistock and Shakespeare. They are said to get a commission of fifty cents on the sale of each dollar in one week. Apparently they are working on behalf of New York card brokers.

The people among whom they are working are extremely conservative, and prefer to keep their money at home and a safe place in the savings bank than risk it in speculation. But the appeal is racial. They are told that the money they invest will help to put the fatherland on its feet, and that, when the mark recovers to its par value, they will make a great profit. Needless to say they are paying a great deal more than current exchange for the mark, which they could buy over any Canadian bank counter.

Among the victims it is said that two old Menominee ladies took their life savings of ten thousand dollars out of the savings bank and invested the money in German marks at two of fifty cents on the dollar.

## Crop Prospects

Estimates Wheat Yield at 250,000,000 Bushels

Canada's wheat fields will yield from 250,000,000 to 250,000,000 bushels this year. This estimate has been made by W. A. Black, vice-president and managing director of the Ogilvie Milling Company, and is based upon crop reports received by the company from its agents. Compared with last year's yield, this is an increase of 250,000,000 75,000,000 bushels.

The indications of worms are restlessness, grinding of the teeth, and a loss of the nose, extreme perspiration, even convulsions. Under these conditions the best remedy that can be got is Miller's Worm Feeders. They will attack the worms as soon as administered and will grind them to atoms, thus saving the life of the animal. The little sufferer will be immediately eased and a return at the attack will not be likely.

**Alberta to Protect Birds**  
Alberta is providing protection for migratory birds by the establishment of seven large sanctuaries.

## Leaving the Rural Districts

U. S. 1920 Census Will Show a Large Increase in Cities and Towns

For the first time in the history of the United States, the 1920 census returns will show that more persons live in the cities and towns than in the rural territory, officials of the census bureau estimated.

When the final calculations are completed, the officials declared, they expect it to be shown that 51 or 52 percent of the total population of the continental United States reside in urban districts.

"There has been a very great tendency towards large increases in the cities and towns, which we cannot account for, unless it has come from the country," said Samuel L. Rogers, director of the census. "This tendency towards the cities has been apparent for some time."

It's difficult to convince a man that his money isn't a sure thing until after the race.

**A Corrector of Pulmonary Troubles.** Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in curing disorders of the respiratory organs, but the best testimonial is experience, and the Oil is recommended to all who suffer from these disorders, with the certainty that they will find relief, it will ally inflammation in the bronchial tubes as no other preparation can.

## Present Output of Alberta Coal Mines Is Far Below Capacity

Some men don't want to talk about justice after they get it.

## Advertising Pays

It pays the merchant who advertises. (If he uses his space properly.)

It pays the man who reads the ads. and buys from the merchant who advertises. He saves dollars every day.

It pays the printer. He can give a good paper and maintain a well-equipped plant if he gets a proper volume of advertising support.

EVERY business that amounts to anything, and depends on the public for its sales, advertises. The bigger they are, the more they advertise. The mail order houses get all their business through advertising. It is expensive advertising but it pays them.

The merchants of this district have at their disposal an advertising medium which is worth a great deal to them—more than many of them think. The Hudson Bay Co. and other Big Calgary stores think nothing of spending a few hundred dollars EVERY DAY for advertising in the local papers. Some merchants in the small towns think they are doing a big thing by spending five or ten dollars A MONTH in advertising in their local paper. We freely acknowledge that there are weekly newspapers in the province that are very doubtful value as advertising mediums; such is not the case with The Strathmore and Bow Valley Standard. We have a splendid circulation, constantly increasing, and are selling space reasonably, what more can any merchant ask.

One of the best testimonials we have received from an advertiser comes from a merchant of this place.

"I have been in business more than twenty miles from Strathmore. He states that he is very pleased with the results from his ad in the Standard."

"That was an unsolicited testimonial, too."

If you have not advertised before (and there are some merchants in the town and district whose names have never decorated our advertising columns) get in the swim and advertise now. We will give you every assistance in our power to make your ads. attractive.

**The Strathmore and Bow Valley Standard**  
John Mackenzie, Proprietor.

# Columbia Grafonolas

"May we play this one, Mother?"

FORTUNATE are the children in homes made musical by the Columbia Grafonola. An honest liking for good music comes to them naturally. You need not worry over the children spoiling your valuable records. The New Set Automatic Shop, an exclusive Columbia feature, is a big advantage in this respect. Just start the Grafonola and it plays and stops itself.

**No Tax Added**

New Dominion Taxation has not increased the price of any Columbia product.

Ask us to Play these Columbia Records over for you:

THREE FISHERS WENT SAILING, Columbia 345, Price \$1.00  
OLD DAN TUCKER AND NIGGER LOVE, A. W. KAMMELSON, Harry C. Brown, Danjo, A1209, 20 inch \$1.00  
DANCE OF THE HOURS, Parts I and II, from "La Cigarrera" Maitland Oubertine, A1214, 12 inch \$1.00

Strathmore Trading Co. Limited, Columbia Agents, Strathmore

## Purebreds vs. Grades

An interesting experiment has been conducted by the Canadian Government at their Experimental Farm at Assiniboia. It compares the work of purebred Holsteins with that of grades. For the past three years the records of the five best purebred Holsteins at the farm have been compared with those of the five best grade Holsteins and it was found that the purebreds produced on an average 17 1/2 lbs. more milk and 1 1/2 lbs. more butterfat per cow than the grades did. It is also interesting to note that the purebreds yielded an average profit per cwt. of \$2.74 more per cow than did the grade animals.

Recent was also kept at the property at the same time in the Holsteins, headed at the Experimental Farm from December 1916 to December 1917. During this time the best sired 15 grade heifers and 12 purebreds, the value of the twelve purebreds being estimated at considerably better than twice the value of the 15 grades. The purebred bull calves born during the same period were sold to farmers in the vicinity for breeding purposes at one each, while the grade bulls of course were sold.

## 9th Semi-Monthly Crop Report

Since the previous report issued on August 15th, harvesting weather has been particularly favourable. The weather has been comparatively cool with bright sunshine. This has been ideal for filling and ripening.

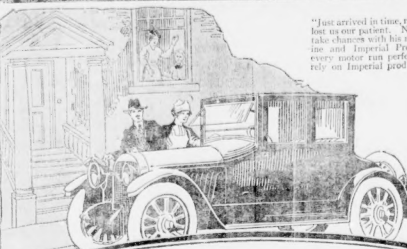

Reports from the south and central parts of the province indicate eighty per cent of the grain cut including corn feed. Through the northern parts of the province fifty to sixty per cent of the wheat is cut and cutting of oats and barley well under way. Light frosts have occurred in various places but no serious damage has been reported up to the time of writing, which means that practically all the wheat is just the stage where it can be damaged and the greater portion of oats and barley are sufficient.

or well advanced to ensure a good sample. There is not sufficient threshing done yet to form a estimate of yields based on actual threshing reports. The yield will be heavy and the sample good. All districts report plenty of labor but wages are higher than usual.

H. A. CRAIG,  
Deputy Minister.

"Just arrived in time, sure, delay might have lost us our patient. No doctor can afford to take chances with his motor. Imperial Polarine and Imperial Premier Canadian makes every motor run perfectly. We can always rely on Imperial products."

## You Can Depend On It

EVERY drop of Imperial Polarine is 100% lubrication. It spreads a protecting cushion of oil between all wearing parts, making each part function smoothly and reducing wear to a minimum.

It has exactly the right body—forms a perfect piston-to-cylinder seal, maintains compression, conserves power and saves fuel. It does not break down or run thin under extreme heat.

Imperial Polarine burns clean, reduces carbon deposits to a minimum and assures long life, smooth running and reliability to your motor at all times, under all conditions.

There is an Imperial Polarine grade for every motor need, from crank shaft to differential. Consult the Imperial Polarine Chart of Recommendations for the correct grade to use in your car—it is on display wherever Imperial Polarine is sold.

Sold in one and four gallon sealed cans, steel kegs, half-barrels and barrels, by dealers everywhere in Canada. Buy in large containers and save money.

## Kotarians Visit Strathmore

(Continued from front page)

to the work going on at the farm, they had the largest herd of Holsteins in Western Canada. The company were putting these through a special registry. They had at this time 26 calves entered into the record of first-calfers test. The farm had the third and seventh highest milkers in two-calfers heifers in the Association. Three records had just been completed over 20,000 pounds during the past few weeks, one being over 23,000. A much larger interest was now being taken in Holstein. The farm had lately sold some choice young animals, the prices ranging as high as one thousand dollars.

With regard to crops, they took the position that sufficient feed was the salvation of Western Canada. It was also here they would have been some of feed this fall, and would be able to provide pasture or its equivalent the year round. He believed the worst were doing with confidence, would be of value in all Western Canada. They were a good dry land and were exceedingly successful in irrigation.

Mr. Norrith, who was well talked on, contented himself with welcoming the Kotarians to the farm, and saying they had all enjoyed themselves.

Welcome from Strathmore.

Welcome from the town of Strathmore was given by Mr. Dixon, who said he was sorry the Kotarians were unable to be present to welcome the visitors, as he was suffering from a cold at present. He was pleased to see that the Kotarians had enjoyed so far as Strathmore, and that they had not so much scenery east of Calgary as west of it, yet they could enjoy a better view of the world.

Councillor Marshall, Bell, and Sanderson also spoke, welcoming the visitors.

A check was presented to the party left again for their care, with hearty cheers for the hosts and thanks for the hospitality accorded them.

Miss Ethel Inlay, whose marriage  
takes place shortly, was guest of  
honor at a shower given Saturday  
afternoon by Mrs. J. A. Beaupre. The  
hostess was assisted by Miss Alice  
Inlay and Victoria Beaupre. The  
rooms were prettily decorated with  
sweet peas and asters. During the  
afternoon the guest of honor was  
showered with dainty gifts from a  
company decorated with lilies.

Those present were: Mrs. Ethel  
Inlay, Mrs. McManis, Mrs. McLean,  
Mrs. Atkinson and Misses L. Thorpe,  
K. Morris, W. Todd, M. Jarman, F.  
Lillott, L. Clifford, L. Humphries and  
A. McCullough. Calgary Herald.

## Local Jottings

**OF LOCAL INTEREST**  
Readers are requested to send  
in items for this column not later  
than 12 o'clock Monday noon,  
preceding day of publication. All  
local news items are welcomed  
by the Standard. Phone 17 or 68.

An enjoyable dance was held in the  
Opera House on the evening of Mon-  
day, Labor Day, under the auspices of  
the Baseball Club. There was a good  
attendance. Music was supplied by  
Watkins' Orchestra, Calgary.

Messrs Swenson and Boyles com-  
menced threshing wheat on Monday,  
and several other farmers now have  
their rigs working. Threshing has also  
commenced in the Carleton district.

Duck shooting commenced on Wed-  
nesday last, and the ducks being plentiful  
some good bags were secured  
both by local people and city sports-  
men.

"No Shooting" cards for sale at  
Standard Office.

Rev. T. Phillips and Mr. F. T. Mc-  
Elhoses were delegates to the Finan-  
cial District Meeting in Calgary on  
Tuesday.

Rev. Mr. Gordon and wife of Tule-  
well were visitors at the Parsonage on  
Monday.

Messrs Chas. Fraser, New Zealand,  
and Alex. Wood, Scotland, are at pre-  
sent on a visit to their cousin, Mr.  
Geo. Fraser. After the termination of  
their visit here they will en route  
to New Zealand via Vancouver. Mr.  
Fraser has his baggage with him, and  
entertained the people of Strathmore  
with several selections during the  
week-end while on his way through  
the town.

Dr. Girvin, since his return from the  
east, has been kept pretty busy with  
increased of the population. A son  
was born to Mr. and Mrs. Dick Jacobs  
on September 2nd; a daughter to Mr.  
and Mrs. Harry Groves on September  
2nd; and a son to Mr. and Mrs. Har-  
vey Hanson on September 2th.  
Doctor must have been stocking up  
his bag while down east.

Strathmore Women's Institute will  
meet at the home of Mrs. W. C. Tuck-  
er, September 15th, 1920. Community  
singings, 2 p.m. sharp. Everybody wel-  
come.

Tomorrow (Thursday) evening, the  
degree team of Sandstone City Lodge  
100.P., will visit Strathmore Lodge  
and confer the 1st degree on a number  
of candidates.

Quite a number of local people have  
been holidaying in the mountains dur-  
ing the past two or three weeks. Among  
those who have been up there are  
Mr. E. Dobson and family, Miss  
Goldie McIntyre, Miss Margaret An-  
derson, Mr. and Mrs. W. M. Marshall  
and Mr. and Mrs. Geo. Wales, Mr. and  
Mrs. Mackenzie, and others.

Mrs. E. Dobson returned on Friday  
from her visit to Ontario.

Strathmore's butchers have reason  
to congratulate themselves on the  
quality of the meats they are turning  
out. While in Calgary the other day  
a friend mentioned "Oh, Strathmore.  
That's where the good sausage comes  
from." It appears that quite a num-  
ber of Calgary commercial men and  
others who have occasion to be in  
Strathmore lead up with the excellent  
links and other meats at the local  
stores and find that the quality is  
better and the price less than in the  
city.

Dr. and Mrs. Girvin returned last  
week from a three months' visit to  
Ontario. Dr. Girvin has now resumed  
his practice, while Dr. Giffin, who ef-  
ficiently acted as his locum tenens  
during his absence, has now time to  
devote his attention to the big crop  
being harvested on his Cluny farm,  
under the direction of Bill Deane.

Mrs. G. Swenson, of Grandsin, North  
Dakota, has been spending the past  
few weeks with her daughter, Mrs. B.  
F. Jones.

Mr. J. S. Dennis, Chief Commissioner  
of Irrigation for the C.P.R., Mr. A.  
S. Dawson, Chief Engineer, and Mr.  
Randolph Bruce, of Wainwright, B.C.,  
made a four last week of the Western  
Irrigation Block, starting from Buss-  
an and went to Calgary. They in-  
spected the irrigation works through-  
out the district, and were at Strath-  
more Headquarters for some time.  
They were well pleased to see the  
fine crops all through the block.

Mrs. R. S. Stockton and daughters,  
Mary and Esther are visiting Mrs.  
Stockton's mother, at Golden, Colo-  
rado.

## DOBSON'S

Men's Outfitter, Strathmore

### RYE MARKETED AT CARLETON

The first load of new grain market-  
ed at Carleton was brought today by  
W. D. Laraway of the National Eleva-  
tor Co. The grain was spring rye of  
the best grade grown by Mr. Fowler.

Another week will see a consider-  
able amount of threshing done, and it  
will be possible to form a more or less  
accurate report of the average yield,  
which there is no doubt will be much  
larger than it has been for several  
years.

From the appearance of the stalks  
and the length of the heads, an excel-  
lent yield is indicated, the only un-  
certainty being the possible effect of  
the hot weather in the early part of  
August on some of the ears. This can  
only be determined by threshing, but  
farmers generally are very optimis-  
tic.

The Brooks Bulletin mentions that  
forty dozen ears of corn were sent  
from Brooks to Strathmore to form  
part of a banquet to Calgary Board  
of Trade last week. The Bulletin is  
apparently a little previous, as the  
banquet took place yesterday and was  
for the Rotarians of Calgary. The  
Bulletin hopes that the good people  
of Strathmore will give Brooks full  
credit for the corn at the banquet, and  
we have pleasure in so doing. If the  
Brooks people will now send along  
some whisky we will give them still  
more credit. If we get "full" we  
will give them full credit. We don't  
want any outside reader, however, to  
get the idea that corn is not grown in  
Strathmore, for house grown corn has  
been on many local tables for the  
past six weeks, though it has not been  
grown on a large scale.

The Cash Value of A  
Pedigree

(Experimental Farm Note.)

Attendants have a pedigree of some sort whether purchased or scrub. Only the pure-bred animals have their pedigree registered and have pedigree certificates issued. A pedigree is valuable only when it proves some fact that is worth while about an animal, either favorably or otherwise. We frequently hear comments of some such nature as "I do not value the papers it is the cow I want." Speaking broadly that may be good business for a butcher but the real stock breeder is paying more attention to pedigree than ever before and we often hear him say "that is a 'scrub' individual but I do not like her breeding."

The man who attaches the most value to a pedigree is the one who knows the most of its true value. The pedigree student may learn of a cow that has had a brilliant showing career. She may be particularly pleasing to the eye in type, form and conformation. He studies her pedigree and immediately decides to let her alone, regarding her as a freak. On the other hand he may find a cow that is not particularly true individual in type but she has for ancestors some of the very best animals of the breed. He decides to buy the cow, doing so on what he knows about her ancestors. He has made use of the pedigree to select a cow that he has not, as so many are inclined to state, paid a big figure for papers.

Pedigree does not make value, it decides value by establishing the history of ancestry. The cow backed by several generations of good producers is much more liable to be the dam or producer than the cow whose dam, of all ancestors is a producer. This does not of course always hold true. Just as we frequently find a root individual with poor line of ancestors so do we find poor individual with strong ancestry. Like, as a general rule, produces like, but the law of variation is also true. The pedigree student studies these lines and draws his conclusion.

When a cow is purchased for a breeding herd two things are kept in mind, first, the value of the cow for what milk she will produce and secondly, the effect she will have upon the future of the herd. A good judge of dairy cattle can estimate closely her value as a milk producer but her worth as a herd improver must be determined chiefly by pedigree.

Individual merit is very important and should not be overlooked, yet it must not be the main deciding point. History shows us some excellent individuals who have apparently sprung from inferior stock and later have become wonderful foundation cows. Such

animals are valuable if properly developed, but the owner must have skill and patience to handle a problem of this kind as often, after a few generations, there may be a regression back to the old ancestral type.

Some herds have been built almost to perfection with the exception that possibly a single defect may be noticed through the entire herd. The owner is a true stock breeder and wishes to have as perfect a herd possible. He decides to secure a new sire and correct this fault. He selects any animal not only strong itself where the defect is shown in the herd, but the breeder finds that the animal is from families perfect in this respect. This

is a sure certain to correct the fault than an animal who is strong individually but part, or all, of his ancestors are weak.

This is where the real value of a pedigree is recognized. It is not so important to know simply that an animal is pure-bred as it is to know that the strain in the herd is of the very best.

W. M. HICKS,  
Superintendent, Agassiz P.C.A Hollander's Advice to  
His Countrymen

This is a healthy country, especially for the native from Holland. We very seldom have fog here. When the weather is foggy and damp, it is only for a few hours and it soon clears up and we have fine smiling weather.

I was employed for four and a half years at the C.P.R. Demonstration Farm, Strathmore. If you intend to come here, please make every attempt to try to get employment at a farm where the people talk English in order to get acquainted with the English language.

If you find bad luck in business, if you are hopeless in getting back to prosperity and are willing to work and live you can save so much money you won't need to work the other four months. The wages in summer time are from ten to five dollars a day. Cost of living is higher than before; the wages however have been advanced. The prices are not too high. Money for \$100 12 eggs, 1 pound of meat and a loaf of bread.

Further I would advise anybody coming here with the idea of turning to work at least one year as a farm hand, even if he possesses enough money to start farming. In this way he will get acquainted with the country, with the raising of crops and with the soil.

We have here sand and loamy soil, some of which can be irrigated. I can irrigate my farmland when it does not rain in the summer months, when there is a drought. This year (1919) I had my land irrigated twice and I have a first class crop. My farm has an area of 65 acres, half of which is pasture and the other part for mixed farming; that's the best way in this country.

(Sgd.) Joh. Janssen,  
Strathmore, Alberta.Grain by the Canal  
Route

Montana grain men are now figuring on the advisability of shipping their grain to the coast instead of eastward. The increased freight rates will make this a matter of greater importance than it was previously. The Standard State Bank Financial Review says the freight differential between Portland and Liverpool and Minneapolis and Liverpool will prove the determining factor.

With an increased railway rate and the prospects of cheaper ocean space, Western Canada farmers are considering the possibilities of the canal route.

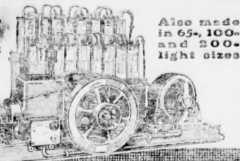

## Ford Motion Pictures

The Moving Picture Operators of the Ford Motor Company of Canada, Ltd., have just returned from an extensive tour of the Dominion.

Thousands of feet of interesting subjects, industrial, scenic, historical and scientific have been secured which will keep the laboratory men busy for months developing and assembling.

The itinerary of the operators then from coast to coast, and into parts of the country seldom trodden by the foot of man.

The educational value of the work done by the company through the medium of these films has received very favorable comments in the press of late, and it was recently decided owing to the gratifying reception given to these productions, to double the yearly output. The Company will, therefore, release 26 complete subjects a year.

## The Irish Trouble

A great deal of attention is being directed in Ireland just now, and the voice of the "Irishman" country are being raised for all the world to hear, not showing a ready-made solution, but a policy to run the country where and where it has been raised by the Irish people of the case.

A man who refused to eat in order to get out of jail is being pointed as a martyr while the legal entities who were conspired in and tried by the State Powers do not get the dignity of a sentence.

Given in Alberta a "Self Determination League for Ireland" has been organized. The best way to get Irish opinion is to ask an Irishman, and three-fourths of the Irish born in Canada are against the movement for Star Point domination of Ireland.

The trouble in Ireland since the partition years has not been so much between the British Government and Ireland as between the two sections of Ireland and another day Ireland was opened the northern part of Ireland was armed and organized to oppose the domination of the unopposed side.

The Star Point movement in Ireland is a counterpart of the movement to recognize in the United States thirty years ago, which was killed by the north by force of arms. There is no oppression in Ireland which is not caused by attempts at lawlessness. The police who are trying to keep order in Ireland are the most oppressed of all.

When Belgium's self-determination was threatened by Germany the British people volunteered by the millions to restore their independence, but the same people in Ireland, Canada, and in the United States who are not advocating self-determination for Ireland were doing their best to hinder the progress of the war. Archbishop Mannix, one "hero" of the Irish movement, did his best to keep Australia out of the war, and after Australia had come in, to try and prevent the flow of reinforcements. German men or went to Irish sympathizers and everything possible was done to embarrass the nations who were fighting for Belgian freedom.

Anyone who is tempted to give support or sympathy with this "Self Determination League for Ireland" or Canada, should find out first what the organizers were doing during the war for self-determination for Belgium, France, and the other nations threatened by German domination.

The British Empire is the world's greatest democracy. Every man and woman in Ireland has the same vote as every other white citizen of the Empire. Why is self-determination wanted?

## Rockyford News

Mrs. Lizotte and family left on Monday morning for Seattle, Wash., where they intend to reside permanently.

Mr. and Mrs. Fleming left on Monday evening for their home in Madison, Iowa. They are very pleased with this district and intend to return in the near future to reside here permanently.

Miss Lounsbury is spending a few days in Calgary this week.

The Rockyford School opened on Monday the 13th August with an enrollment of thirty-five pupils, which is almost a full seating capacity of the building. Mrs. Nelson is in charge for the fall term.

Mr. and Mrs. Curran have now taken possession of the Rockyford Hotel and expect to make extensive alterations in the near future, converting the building into a model hotel, which will be a credit to a growing town.

EXTRA. The Rockford train was wrecked on this last Tuesday. We hope this may become a more common occurrence.

Mrs. J. Johnson left on Sunday evening for Hanna, where she is spending a few days with friends.

Miss Hopkins, of Calgary, is acting as stenographer for the Canadian Bank of Commerce during Mr. Deane's absence, which he is spending in Banff.

## Moving Pictures Taken at Strathmore

During the course of last week, Mr. Matheson, of New York, one of the big men of the moving picture world, was in Strathmore district with a moving picture outfit taking farm scenes around the Demonstration Farm.

Accompanying the party was Miss Edna, a color artist of considerable note in England, who took a number of sketches here.

The purpose of the party, which is travelling through Western Canada from Vancouver to Winnipeg, is to develop a series of pictures giving a comparative idea of Canada's great resources, and they will find abundant material in this part of the country this year in the fine crops that cover the district.

The films will be shown extensively in the U.S. and Europe and will attract much valuable publicity to the irrigation block, and to Canada as a whole.

## Local Grain Prices

September 7th, 1920.
